AT&T Campaign Analysis

Team Introduction

Yucca, Hadiqah, Rumee, Octavio

Agenda

- Background
- Goals
- Location Strategy
- Audience Analysis
- Creative
- Inventory Analysis
- Conclusion

Background

Our agency was contracted by AT&T to conduct comprehensive analysis on their campaign data based on location, audience, creative formats, and inventory in order to provide strategic recommendations that would maximize their future campaigns.

Objectives:

- Present top and bottom performers in location, audience, creative formats, and inventory
- Highlight areas for improvement
- Deliver strategic recommendations based on insights

AT&T

Goals

Goal type	Primary goal	Secondary goal
Audience	$250 CPA	0.015% CTR
Desktop conversion	$350 CPA	0.015% CTR
Smartphone conversion	$400 CPA	0.015% CTR
Viewability	60%	$80 vCPM

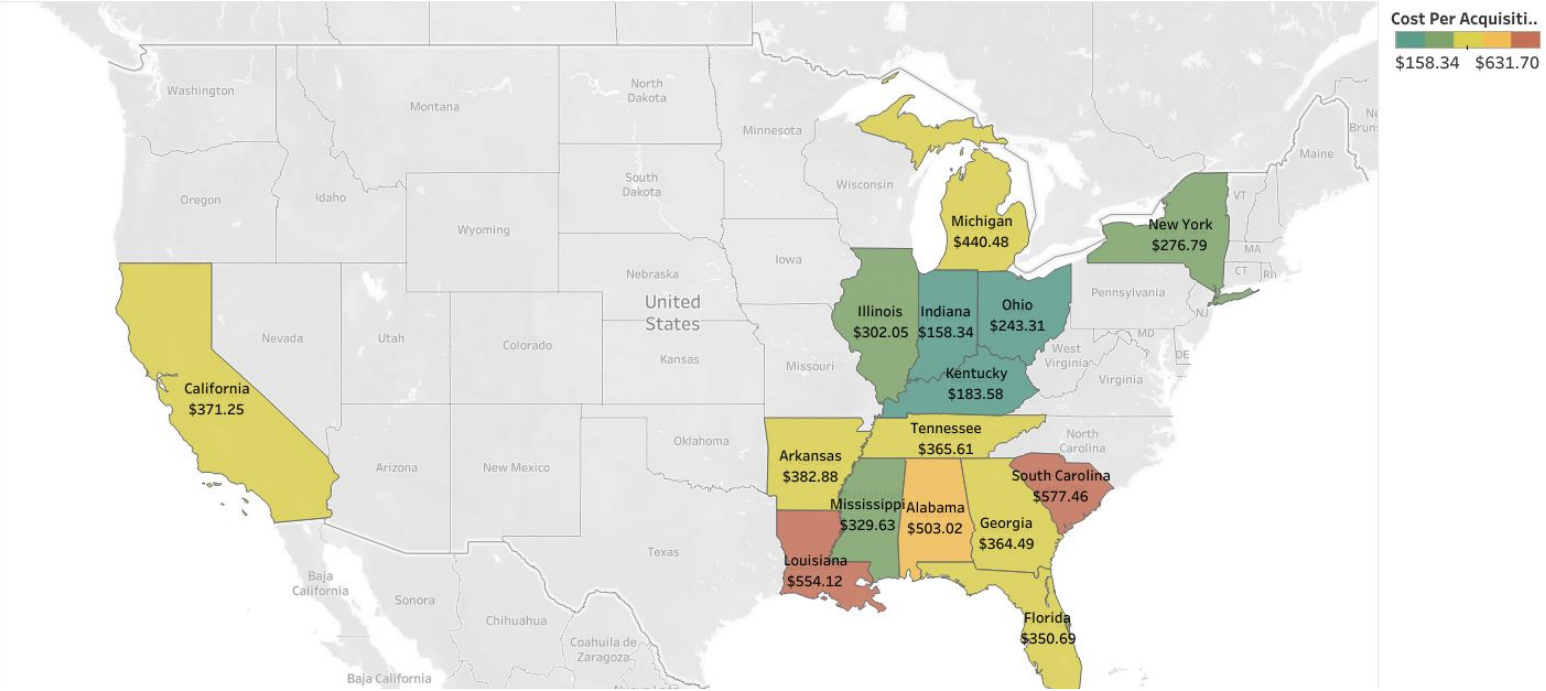
- Analyze states based on cost efficiency and viewability to identify top performers and areas for improvement
- Analyze the top performing audience segments, opportunities for growth, and recommend target personas
- Analyze the most cost-efficient creative formats and messaging to improve engagement and lower CPA across devices
- Analyze exchanges and publishers based on performance metrics and recommend direct buy options

Location Strategy

Considerations

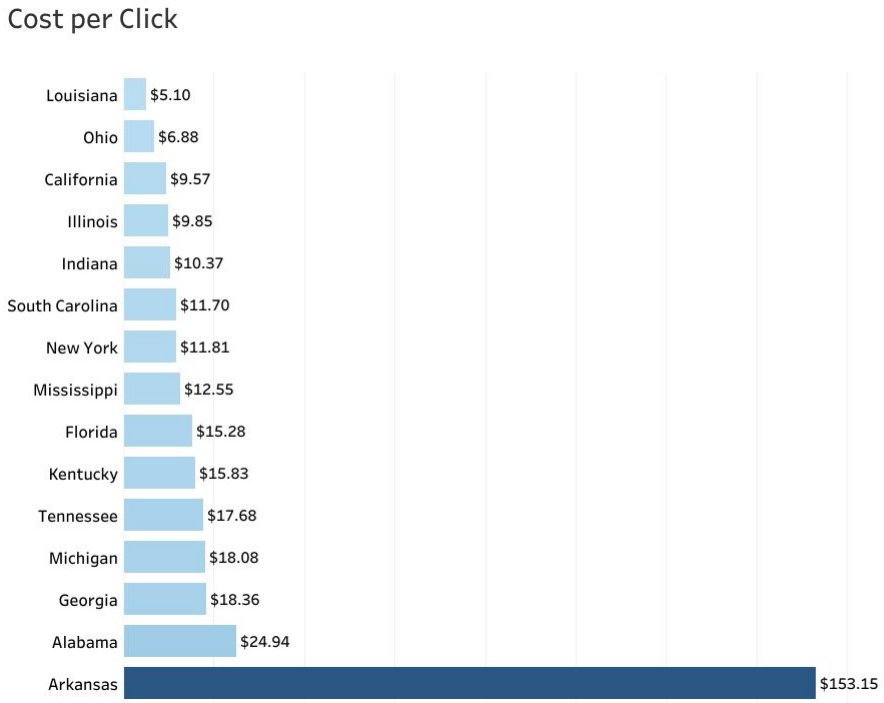
- Locations with ranges that spanned two states were removed
- Some rows of data had zero clicks
- States with few rows of data
  - Arkansas and Kentucky - 1 row of data
  - Louisiana - 2 rows of data

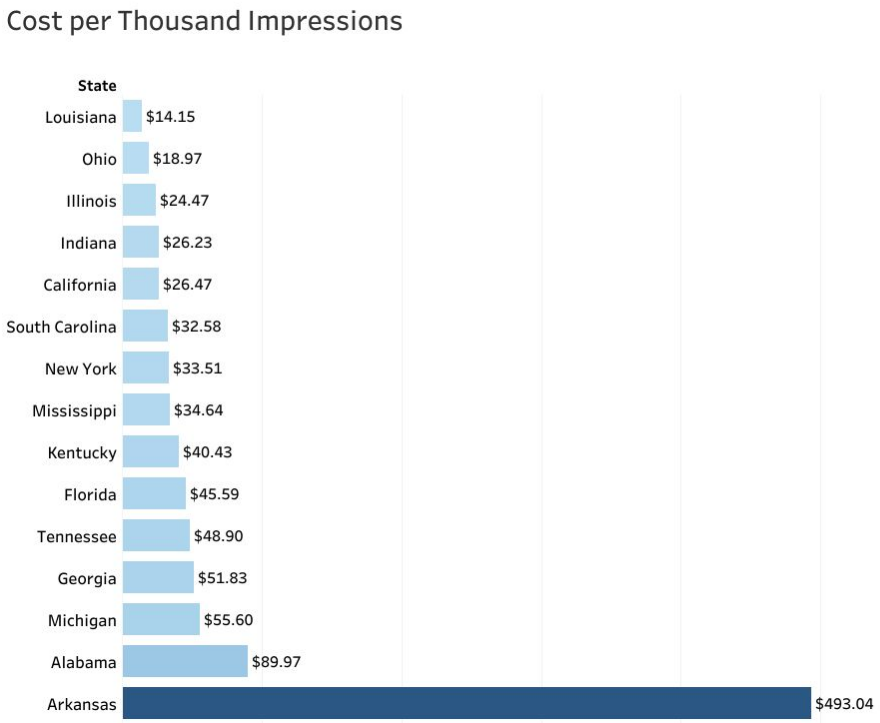
Performance Metrics - Cost per Acquisition



Lowest CPA: Indiana, Kentucky, and Ohio
Highest CPA: Louisiana and South Carolina

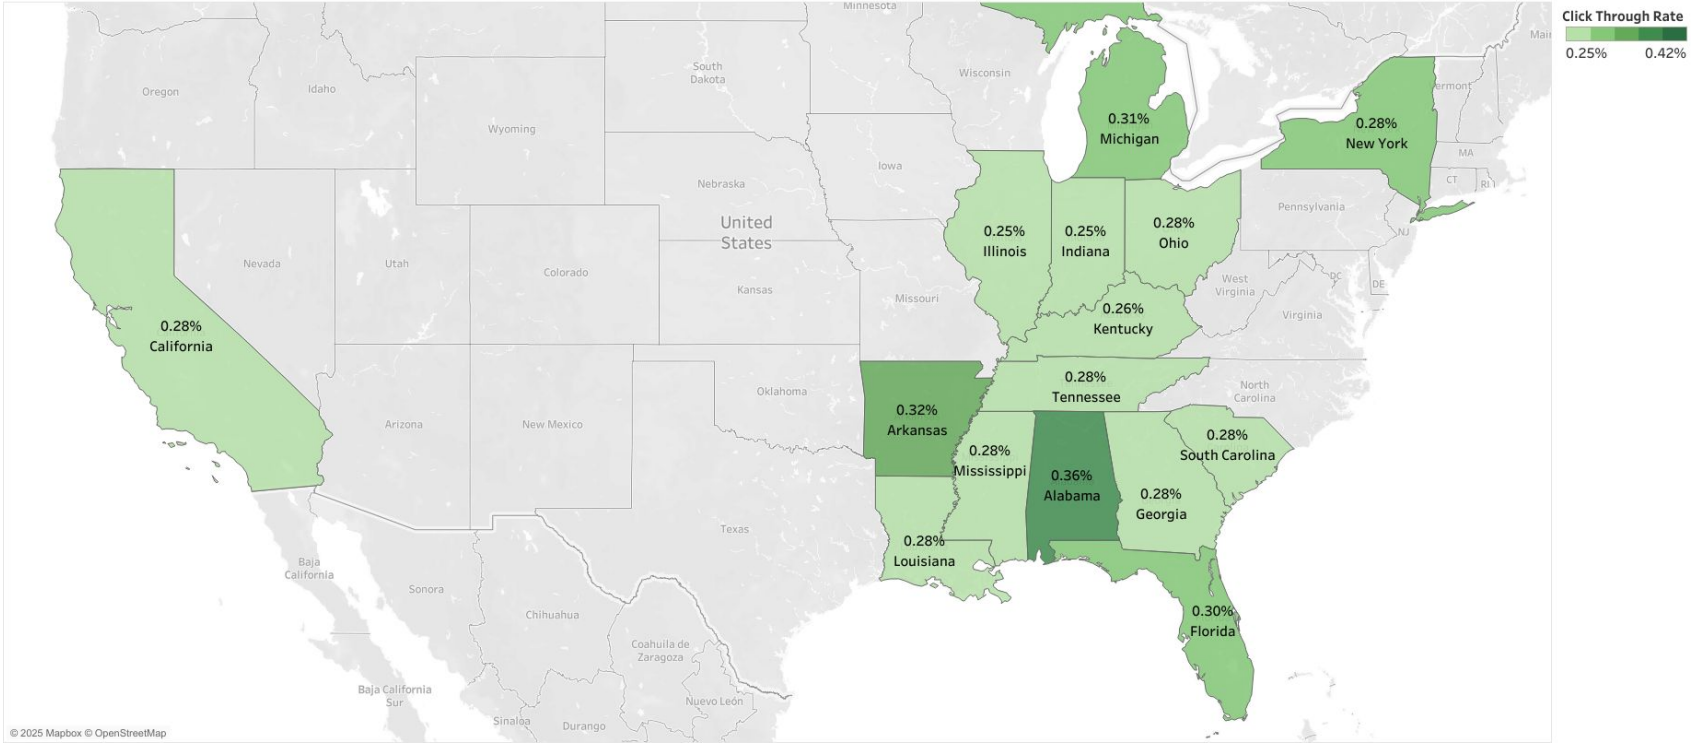
Performance Metrics - CPC and CPM





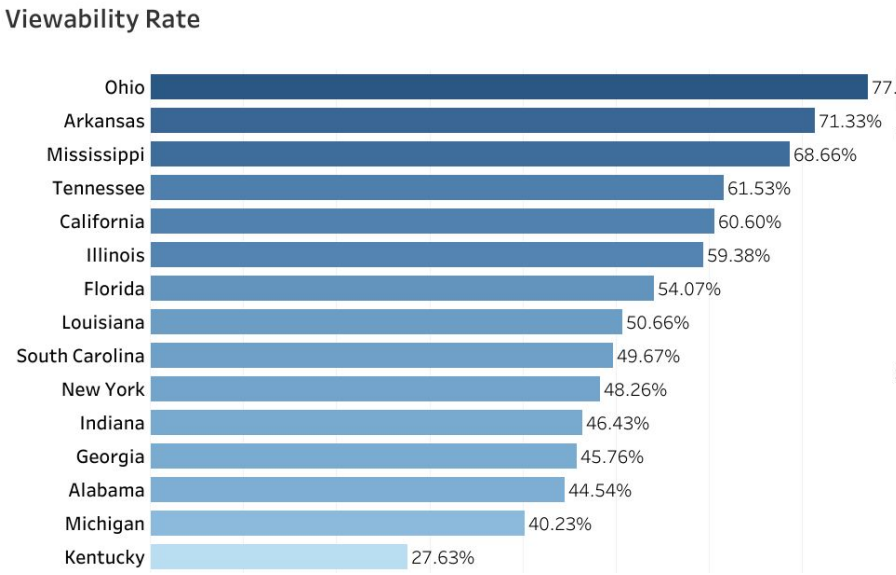
Cost-effective: Louisiana, Ohio, Indiana, Illinois, and California
Least cost-efficient: Arkansas and Alabama

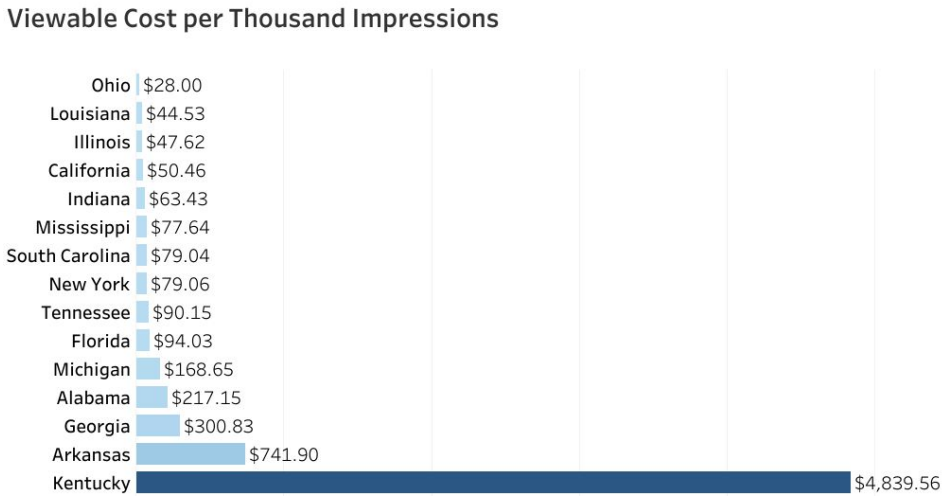
Branding Metrics - Click Through Rate



All states meet the secondary goal for CTR
Average is 0.27%

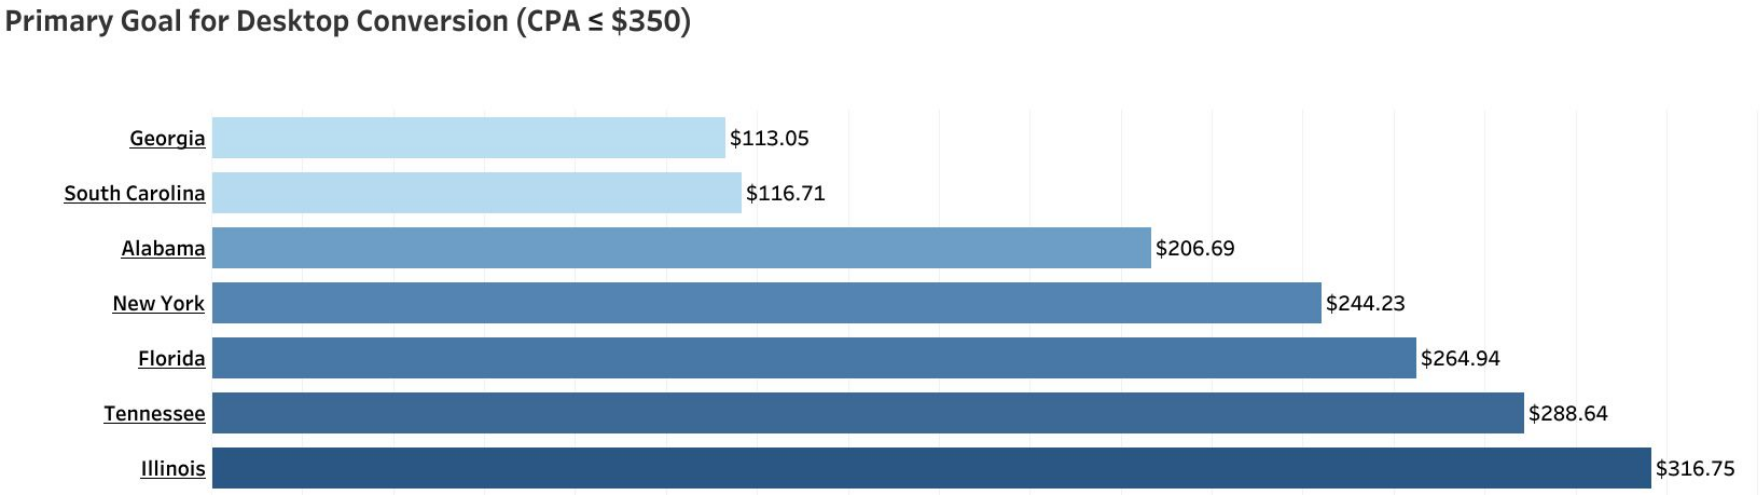
Branding Metrics - Viewability Rate and





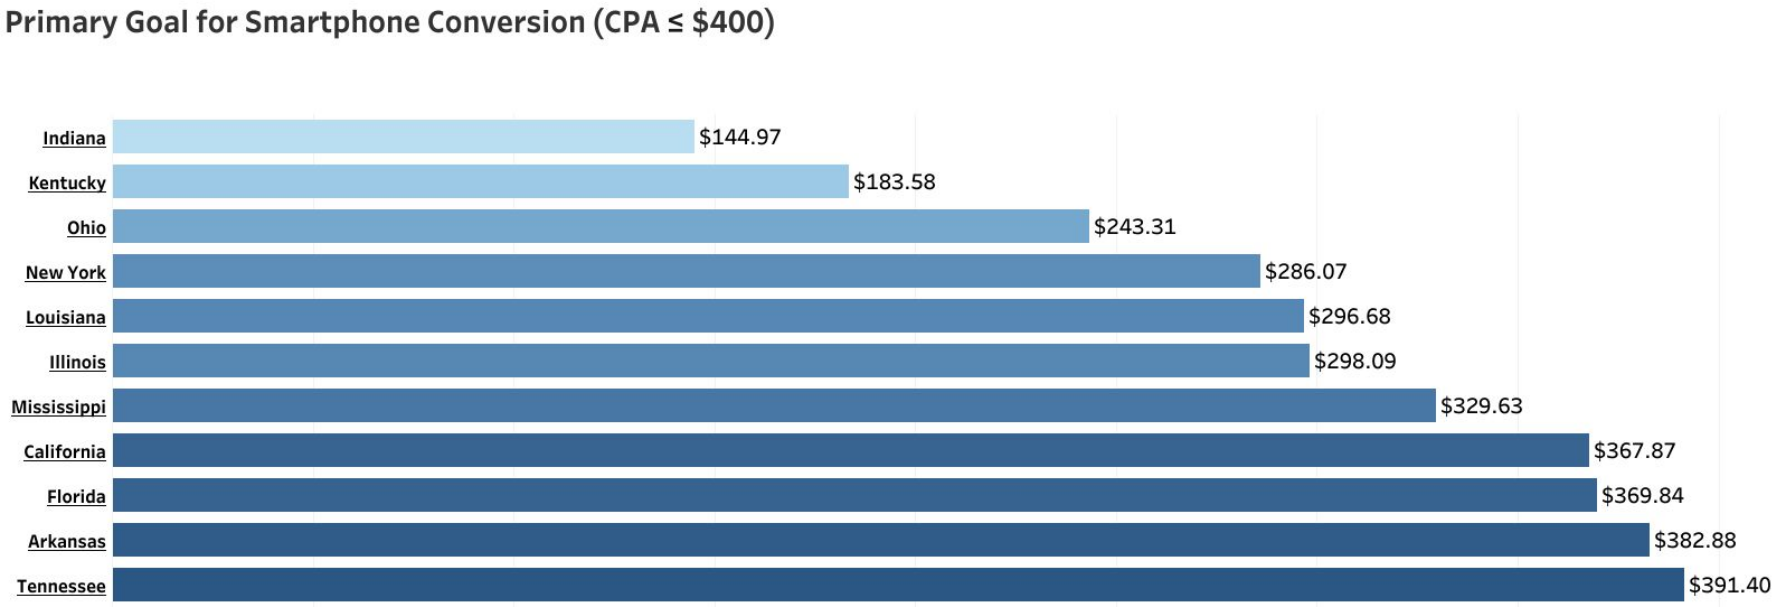
High views and low cost: Ohio, California, and Mississippi
Low views and high cost: Kentucky, Michigan, and Georgia

Top Performing States



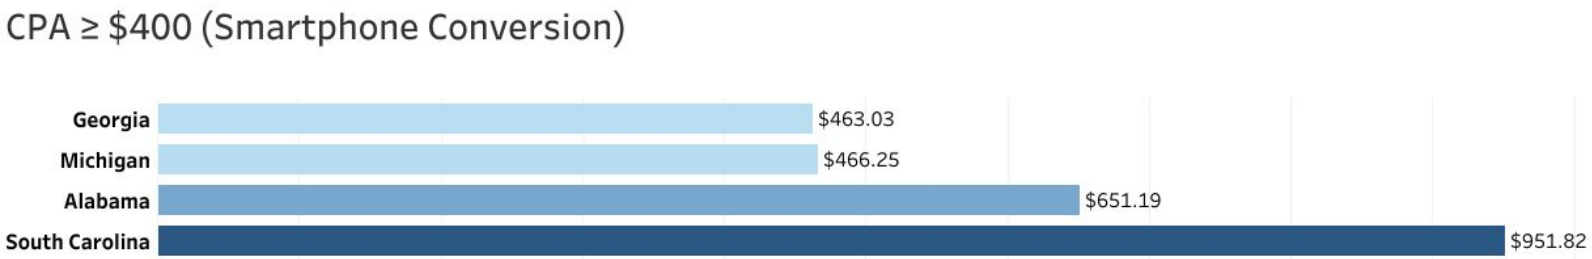
7 states meet the primary goal for desktop conversion

Top Performing States (cont.)



11 states meet the primary goal for smartphone conversion

Lowest Performing States



Variety in states that don't meet either goals
Exception: Michigan

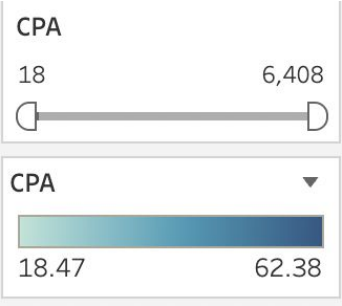
Insights and Recommendations

- Arkansas and Kentucky are the least cost-efficient states with low numbers of clicks and impressions and higher costs
- Michigan doesn’t meet the primary goals for desktop and smartphone conversions
- Louisiana and South Carolina require targeted improvement initiatives
- Indiana is cost-effective, but could improve viewability
- Ohio is performing in all metrics
- Recommendation: Capitalize on top performing states and target low-performing states and implement interventions based on their weaknesses

Audience

Top 10 Performers: CPA

★ Goal: CPA<250



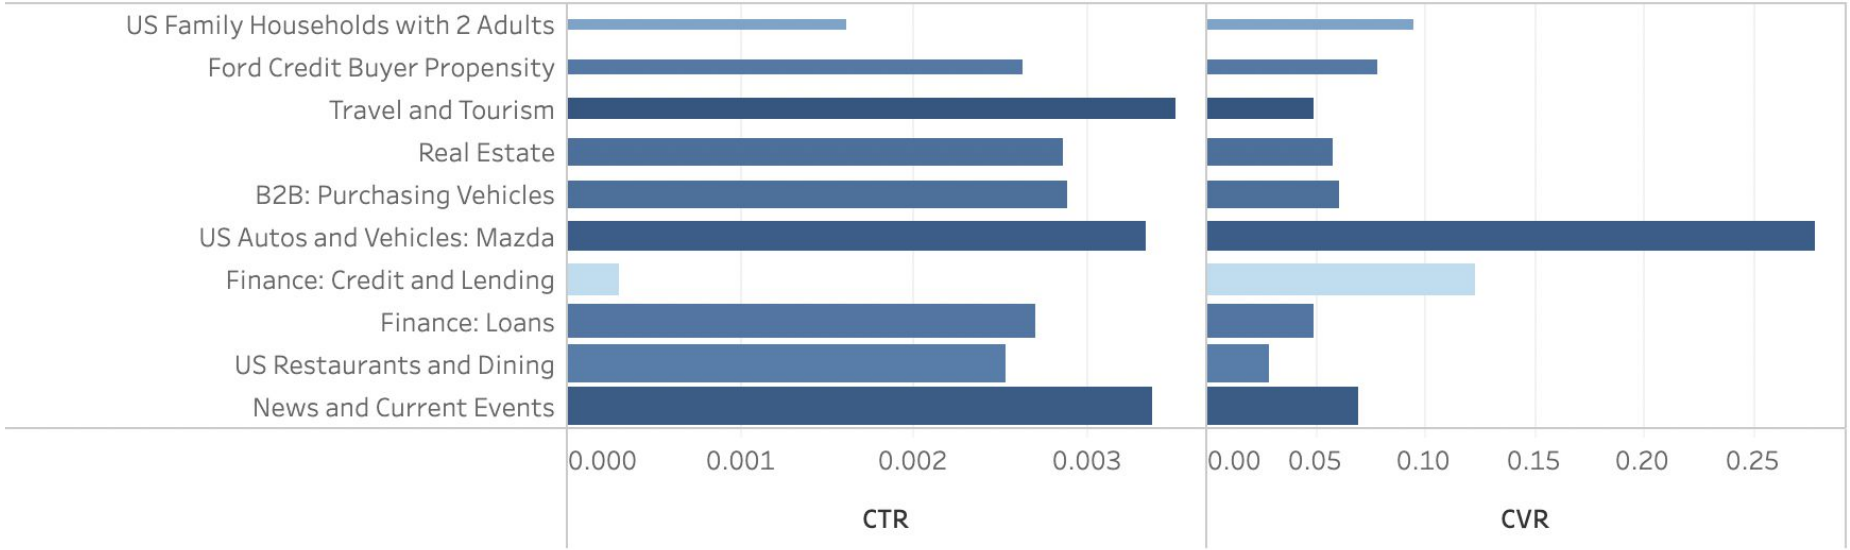
Themes:

- ★ Finances
- ★ Home Owning
- ★ Family Households
- ★ High Disposable Income

Top Performing Audiences by CPA

US Family Households with 2 Adults	18.47
Ford Credit Buyer Propensity	25.33
Travel and Tourism	33.93
Real Estate	45.49
B2B: Purchasing Vehicles	46.45
US Autos and Vehicles: Mazda	48.32
Finance: Credit and Lending	52.20
Finance: Loans	54.28
US Restaurants and Dining	61.70
News and Current Events	62.38

Top Performing Audiences by CPA - CTR and CVR



- ★ Goal: CTR < 0.00015
- ★ Low CPA: An increased CVR rate serves as a cost-effective opportunity for more customers
  - Travel, Real Estate, Loans, Restaurants and Dining, Family, Vehicles

CTR Analysis

Top 10 Performers by CTR

Home and Garden	0.015853
Home Learning	0.012040
Real Estate - Mortage	0.011947
Real Estate - Residential	0.011319
Autos and Vehicles - Mercedes-Benz	0.011266
Media and Entertainment - Movies	0.011139
Media and Entertainment - Streaming Video	0.011011
Travel - Cruises	0.010251
Home Appliances	0.009501
B2B Financial Services	0.009427

★ Goal: CTR > 0.00015

CTR

★ Top CTR and CPA have similar themes of Real Estate, Home, Travel, and Media

★ Investing in these overlapping audiences would be a safe option

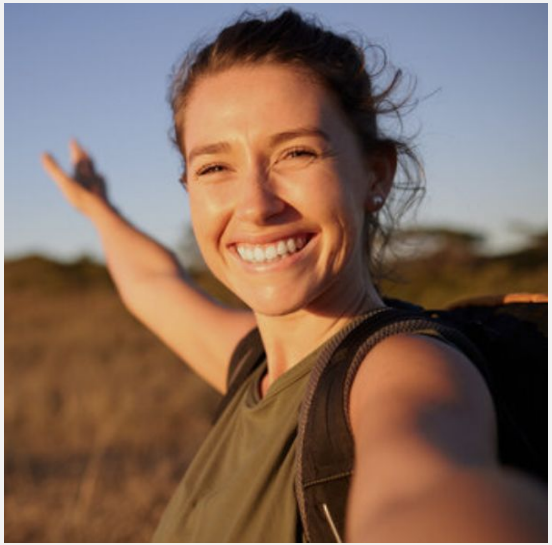
Persona: Homeowner Hank

- **Age**:40
- **Location**: Fremont, California
- **Status:** Married with 3 kids
- **Occupation**: Dentist
- **Hobbies:** Fine dining, Family outings, investments
- **Values:** Building income, owning property, providing for family, stability
- **Ad:** Homeowner Hank is a busy man. He is relied on by his family, clients, and is in constant communication about important investments. He needs services that he can rely on, like AT&T

Persona: Girlboss Grace

- **Age**:32
- **Location**: New York
- **Occupation**: Senior Tech Manager (Remote)
- **Hobbies:** Self care and beauty, interior design
- **Values:** Free time, professional growth, quality experiences
- **Ad:** Girlboss Grace is put together. She plans out her free time, sets goals for herself, and expects quality results from herself as well as her purchases. She goes to order from a sale that just dropped, but her slow connection causes her to miss all the bestsellers. That won't happen with a quality service that AT&T provides

Persona: Adventurous Audrey



- **Age**:26
- **Location**: Texas
- **Occupation**: Photographer
- **Hobbies**: Traveling, rock climbing, watching sports
- **Values**: Living in the moment
- **Ad:** Adventurous Audrey can stream her sports games from anywhere; she can be in a new city, new terrains, or her house. Regardless, her connection won't buffer; she can rely on AT&T on any of her adventures

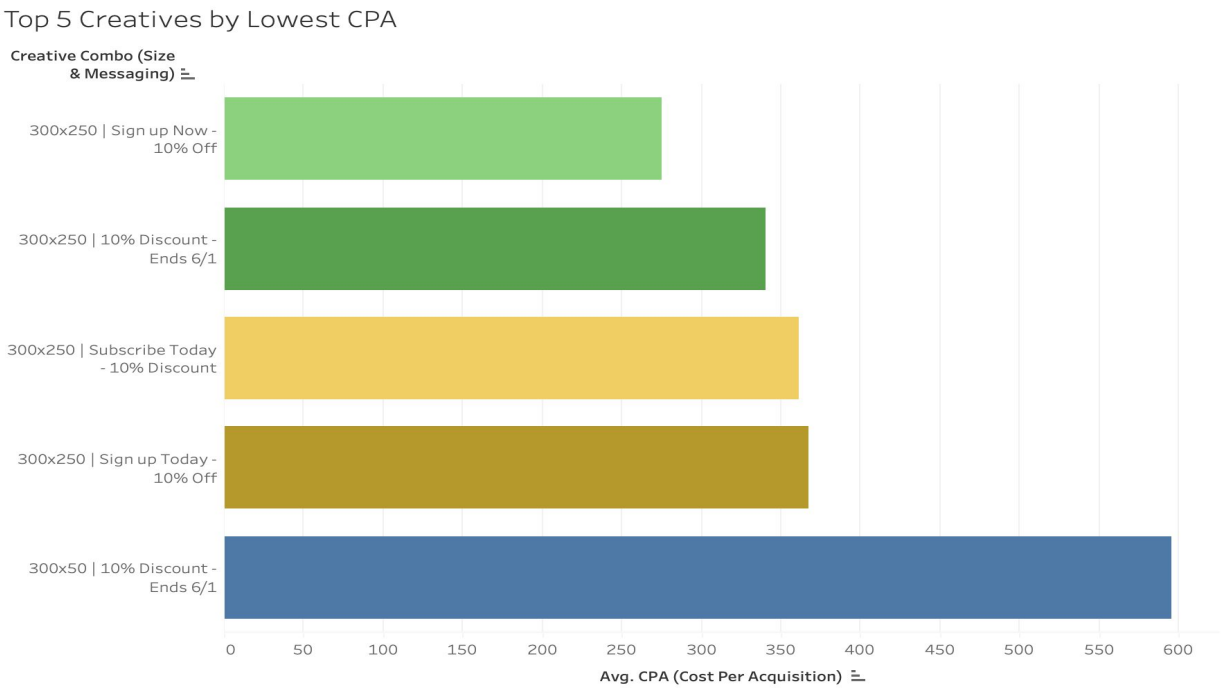
Key Findings and Recommendations

- ★ Our most cost effective audience segments include finances, travel, real estate, B2B, 2-adult households, vehicles, and dining
- ★ AT&T should increase the budget for low CPA, high CTR audiences as they are more likely to be cost effective and have interested audiences even if they are in browsing mode
- ★ AT&T should invest in low CPA, high CTR , low CVR audiences like traveling, dining, loans, family
    - Browsing mode ⇨ customer

Creative

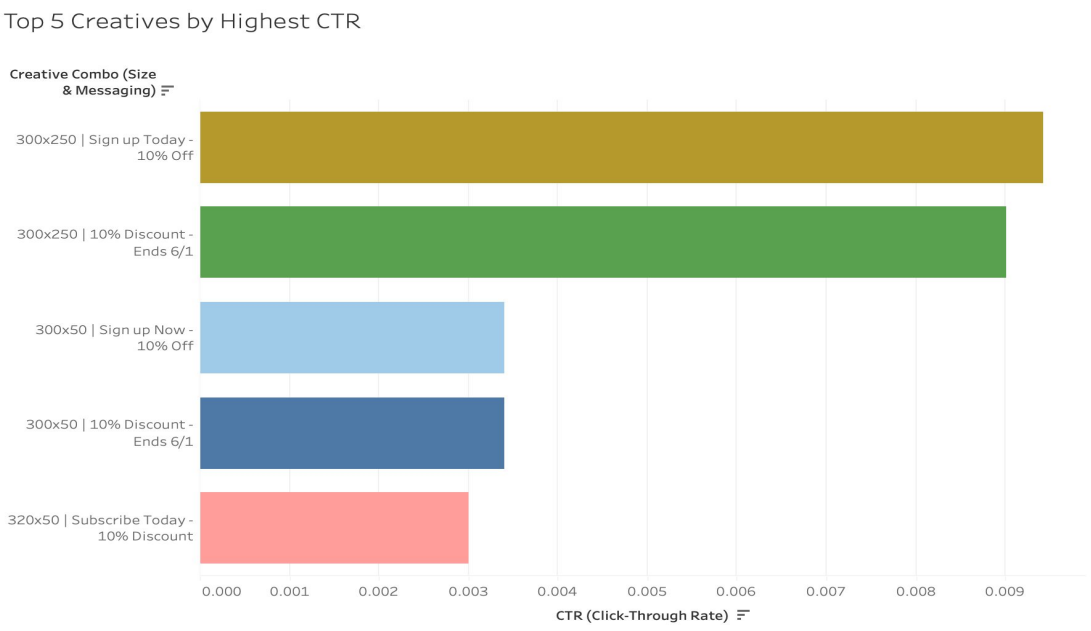
Top Performing Creative Formats (by CPA)

- The most cost-efficient creative format was **300x250** with the message **“Sign up Now - 10% Off”**, delivering the **lowest CPA** across all devices.
- Overall, **banner-sized formats (300x250)** consistently outperformed smaller mobile creatives like **320x50**



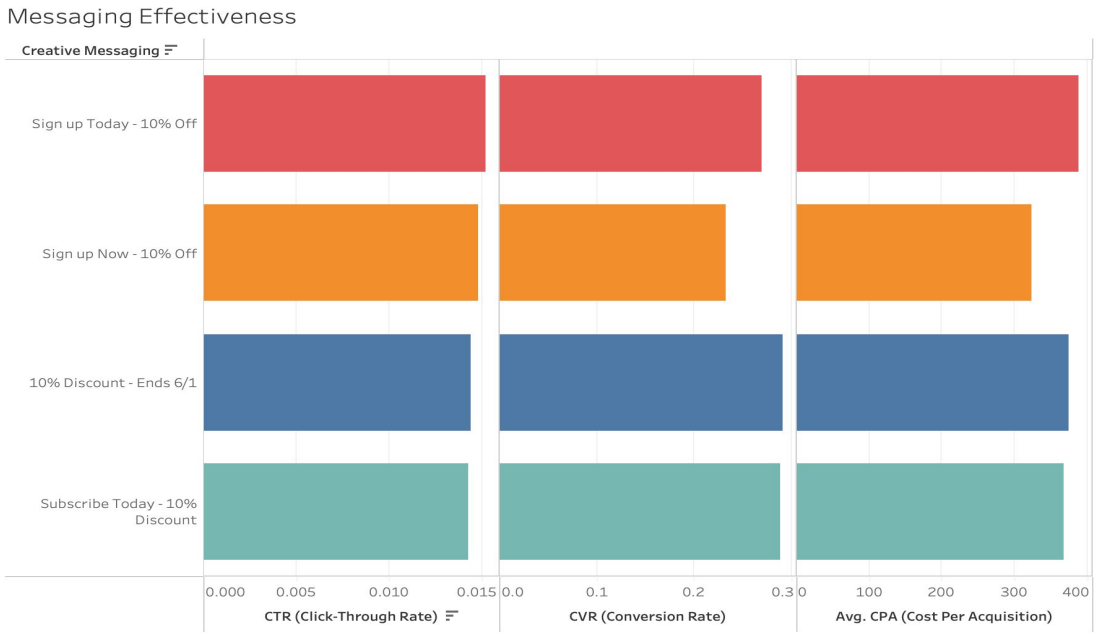
Highest Engagement Creatives (by CTR)

- Creatives with clear call-to-actions like **“Sign up Now - 10% Off”** and **urgent discount messaging** drove the highest CTR.
- Format **300x250** again appeared across top-performing combinations, indicating its effectiveness in driving user interest.



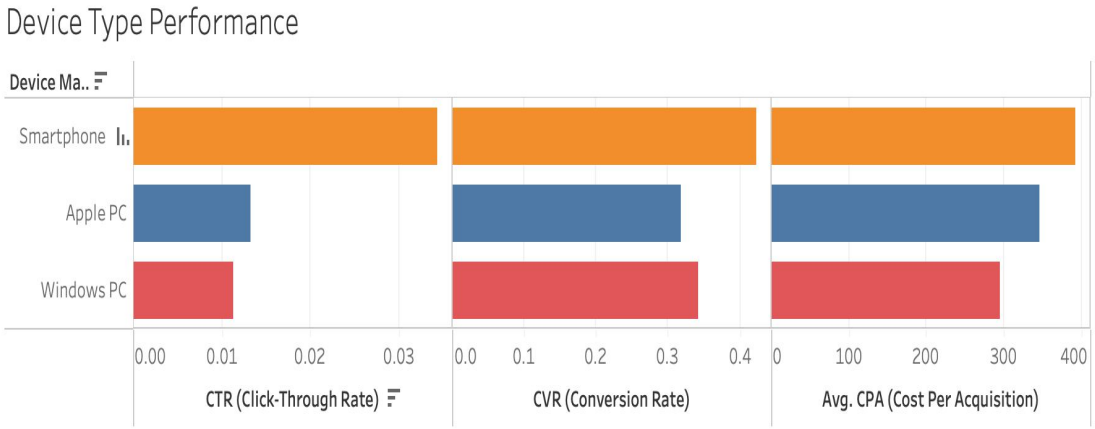
Messaging Effectiveness

- Messaging focused on **limited-time offers ("Ends 6/1")** and **explicit discounts** performed better across both CTR and CPA.
- Less specific messages had lower performance, highlighting the value of urgency and clarity in ad text.



Device-Based Creative Performance

- **Smartphones** generated the most impressions and clicks, but had a **higher CPA** than desktop devices.
- **Apple PC and Windows PC** showed better conversion rates, suggesting **desktop formats may be more cost-efficient** for high-value actions.



Creative Insights and Recommendations

Key Insights

- **300×250 banner** delivered the **lowest CPA** and consistently outperformed smaller formats.
- **Urgent + discount messaging** ("Sign Up Now – 10% Off", “Ends 6/1”) drove the **highest CTR and engagement**.
- **Smartphones** generated the most impressions but had **a higher CPA** than desktop devices.
- **Desktops (Apple & Windows PCs)** showed **stronger conversion rates**, making them more cost-efficient for high-value actions.

Recommendations

- **Scale investment** in top-performing 300×250 formats and replicate successful CTA-driven messaging.
- **A/B test urgency-based copy** vs. non-specific messaging to optimize CTR + CPA performance.
- **Allocate desktop-focused creatives** for conversion-driven goals; optimize mobile for awareness and clicks.
- **Reduce spend on low-performing formats** (e.g., 320×50) and redirect budget to proven high-efficiency units.

Inventory Analysis

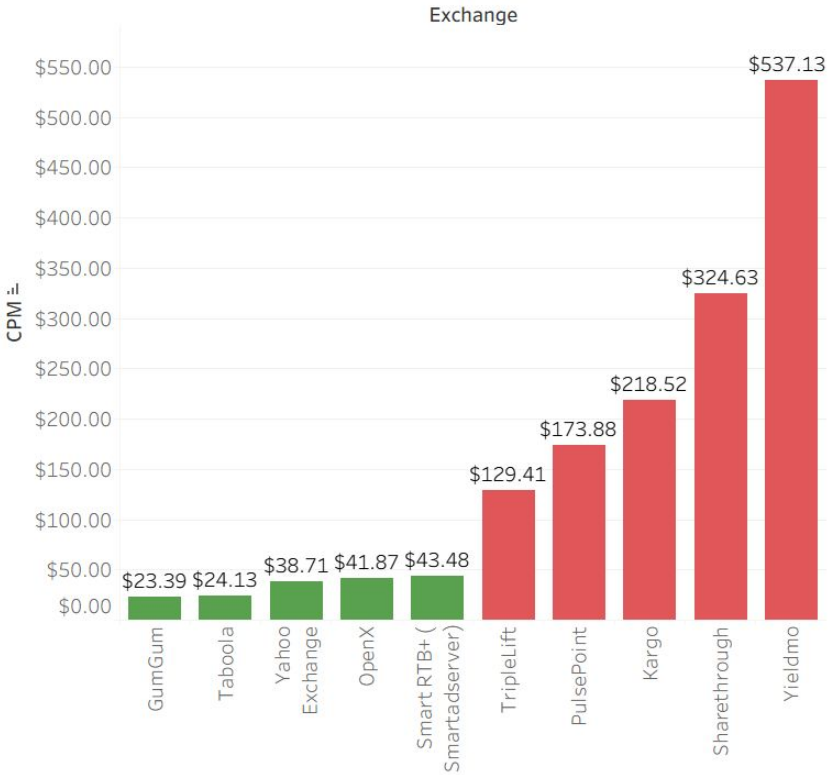
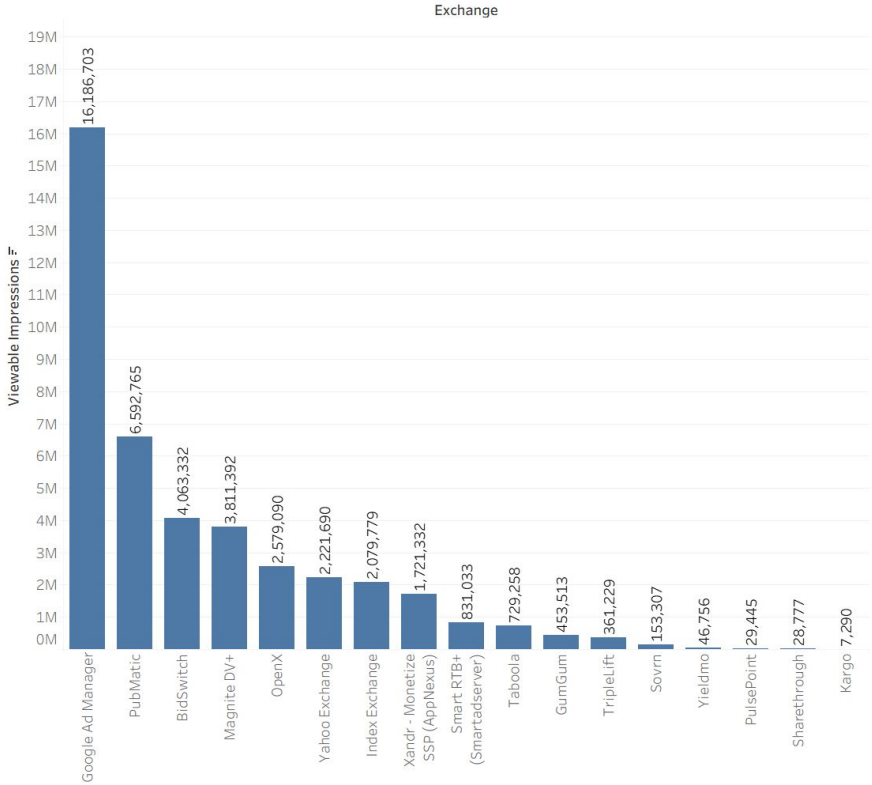
Branding and Viewability

Cost Per Mille



Viewable Impressions



What is a direct buy?

Programmatic Advertising:

- An automated process where algorithms are used to match an advertisers requirements to available ad inventory.
- When a user visits a website, an ad slot becomes available.
- An auction is triggered on an ad exchange.
- Demand-Side-Platforms use data to determine a bid for the ad slot.
- The highest bid wins the ad slot.

Direct Buy:

- When an advertiser purchases ad space directly from a publisher (website or app)
- Usually in terms of CPM (Cost per thousand Impressions)
- No auction, and the ad space is reserved

Recommended Publishers and Exchanges

- Outlook.com
  - 83% Viewability
  - Recommended Rate $25 (CPM)
- ScreenRant.com
  - 7% Conversion rate
  - Recommended Rate $18 (CPM)
- HistoryCollection.com
  - Strong CVR 6% and 70% viewability
  - Recommended Rate $12 (CPM)
- MSN.com
  - Largest viewer base >11m
  - Recommended Rate $10 (CPM)
- Fortune.com
  - Recognized name in business news
  - Recommended Rate $20

Goal type	Primary goal	Secondary goal
Audience	$250 CPA	0.015% CTR
Desktop conversion	$350 CPA	0.015% CTR
Smartphone conversion	$400 CPA	0.015% CTR
Viewability	60%	$80 vCPM

Source*

Conclusion

- Location strategy: Target low-performing states and implement interventions based on their weaknesses
- Audience strategy: Invest in high performing audiences (low CPA, high CTR), particularly ones with lower CVR rates as opportunity for cost effective growth
- Creative strategy: Prioritize high-performing formats and urgency-based messaging to reduce CPA and increase engagement
- Inventory strategy: Focus on direct buys with publishers with high viewability and conversion rates
